Comments: Mrs Adri sent me a WhatsApp message requesting one additional day that she needs to speak to the vet who assessed Rex to send her a vet report of Rex(dog), see the below copied message: Good day, Field Officer. I trust that you are well.
I am writing to let you know that I did request the report from the vet regarding Rex, the black bull terrier x at 50 School Street, Abbotsdale. I am still waiting for the report, but should I not receive it today, I will take Rex to another vet here in Malmesbury. I will however only be able to take him tomorrow as I am sick in bed and unable to take him today.

Please accept my apologies for the delay, and please grant me until tomorrow to provide you with the report, or with a new report please.

Thank you for your consideration.

Kind regards,
Adri La Meyer
233 School Street, AbbotsdaleDear Officer Mpho,

Please accept my apologies for the very late submission of the report. The lady that is assisting Rex's owner sent me this as she had to wait for the report.

I am providing transport services and am an intermediate between the owner and the lady that assists as the owner does not have a car and also does not have a cellphone.

Please let me know if you require anything further from the owner so that I can inform her.

Thank you and have a good evening.
Adri
