General Report Comments: Alonso Don took me to the back to see his dog. I saw 1x tan Pitbull x male on a +- 5 meter long lightweight static chain without a collar. The dog is also underweight. I asked Alonso if he has food for the dog and he said no he must still go and buy food. I asked him about the puppy and he told me that the puppy was not his and that he was only looking after the puppy for a few days until his friend came back from Cape town. The puppy was not on the property. Water and shelter observed for the tan Pitbull x male. I issued warning W6287 for the owner to provide adequate dog food for the dog and to also provide the dog with a collar and to remove the padlock from the chain. Will follow up within 4x days.
