General Report Comments: On my arrival I was welcomed by Mr Jamse Arends and I introduced myself and explained my visit to his property. I observed 3 dogs on the property all put in seperate spots on static chains of plus minus 5 metres long to the collars. The 3 dogs I boserved was (brown & white pitbul, black & white pitbull x and a terrier x black & brown). All the dogs are males and plus minus 2 years old. All the dogs appeared physically looking good in condition with no veterinary problems or health concerns. Shelter was available for each dog, water was available and living environment was cleaned. Food was available (dog pallets). I educated the owner about sterilization and he was not interested. The owner said there was a lady who came to feed his dogs with dog allets of which he refused that lady to feed his dogs.
