| CONFINEMENT OF ANIMALS          | Static Chain - adequate length | Property was not fenced |

General Report Comments: On my arrival, I was welcomed by Mrs Jeanette Dyalivane the owner of the dogs.  
The property was not fenced, I observed a black female Africanis adult dog named Blue, and a brown+white Africanis adult dog named Snowy, both dogs appeared physically not looking good in condition (underweight)  
Water was available, shelter was available, the living environment was at some point busy getting cleaned. The owner did confirm that she received a notice to comply.  
Food was available in the form of dog pallets(Montego), the owner said she only feed the dogs one cup of 250ml each once a day, I told the owner that is not enough while the dogs conditions looks underweight, I then asked her to feed the dogs on my presence to show her that the dogs looks hungry and she did feed the dogs on my presence ad they ate the pallets all, I told her to get enough dog pallets as stated in a notice to comply.
