General Report Comments: I saw 1x black pitbull x female lying inside the yard. Upon closer inspection I could see that the dog has a skin problem. There were no grown ups at home and I only found a young boy who was there. I asked the young boy who the dog belongs too and he told me the dog called Tammy belongs to his sister Abigail Blankenberg. On the property there is water and shelter available. The young boy Franklin could not tell me if his sister Abigail is treating Tammy for the skin problem. I issued warning W5779 to get Tammy adequate treatment for the skin condition she has. Will follow up.
