General Report Comments: I went to do a recheck to see if the Pitbull male has returned,I found the owner of the dogs wife at home as she was about to leave for work. I asked her where the Pitbull male is and she said he is at the back,I asked her where he was because I was here and I did not see him,she told me that his runner broke and her husband had to take him to a friend's house while he fixed the runner. The brown Pitbull female is in the front where I can see her,I went to the back where I saw the Pitbull male with a harness around his body,he no longer has the chain around his neck. NFA until further notice.
