General Report Comments: I saw 1x brown cross breed dog tied with a rope to a pole. Upon closer inspection I also saw that the dog does not have a collar and has the bare rope around his neck. I called and a woman who introduced herself as Mrs. Swartz came out and said that she is the owner of the dog called Krummels. I asked Mrs. Swartz why Krummels is tied and she told me that her property is not fully enclosed and that Krummels is unpredictable. Water and shelter is available. I explained to Mrs. Swartz my welfare concerns, and that they should rather put Krummels on a runner and to also provide him with a collar because the rope can shave his neck. Mrs. Swartz understood. I issued warning W6279 to put Krummels on a runner and to provide him with a collar. Will follow up.
