General Report Comments: I saw 1x brindle Pitbull x female on a +-6meter lightweight static chain without a collar. I stopped and called,a woman came out and introduced herself as Mrs. Rudolph the owner of the dogs wife. I asked Mrs. Rudolph why the dog called Queenie is on a chain and she said it's because their property is not fully enclosed and that Queenie does not like other dogs. I also noticed that Queenie does not have a collar and only has the bare chain around her neck which I explained to Mrs. Rudolph that the bare chain can cause injury to Queenies neck. I asked Mrs. Rudolph where Queenie shelter is and she showed the kennel l'm front of the house,so I asked her why is Queenies kennel not near her because if it's starts to rain now where must Queenie hide. Queenie has water available and her body condition is acceptable. I educated about sterilization and Mrs. Rudolph said that she will talk to her husband as he is the owner. I issued warning W6280 to moves Queenies kennel to where she is on a chain and to provide her with a collar. Will follow up.
