General Report Comments: On my arrival in Abbotsdale doing animals welfare door to door inspection , I went to the property house no 50 Skool street, there I was welcomed by Mr Ashley Lewis, I then observed 2 Africanis dogs(brown male not castrated of +-2 years old named Bullet, and brown female sterilized of +-5 years old named Brownie), both dogs appeared physically looking good in condition with no veterinary problems or health concerns.
Living environment was cleaned, and water was available. The was no adequate shelters for both dogs(the owner put corrugated ion against his house making an arg to serve as a dogs shelter with no bedding but only the soil on the ground).

Brownie was also on a static chain that was not adequately constructed more especially the pole(wooden) was not put deeply under the ground to prevent the dogs chain to tangle around the pole. The Chain was +-4 meters long light.

I then issued the owner with a notice to comply of which he did sign and accepted the notice, see attached notice to comply no 15830.
