General Report Comments: I met the owner Mr. January at home,he granted me access to the property. The 2x terrier x females were loose on the property upon my arrival. I asked Mr. January why the dogs were tied with ropes and he said that his son might have done that,but they are always loose. Water is available. I asked Mr. January where the dogs shelter is and he took me to the back where there is shelter for the dogs to protect them from the weather elements. Mr. January also showed me some dog food and said that he still needs to buy more food but only gets his salary at the end of the month. I educated about deworming for the dogs aswell. Will follow-up.
