CHECKLISTS

General Report Comments: I went out and there was no people at home. I contacted the complainant Mrs Sarie Willemse and she asked me to jump into her sister's property so that I can observe what's in property number 5 of which I advised her that I was not going to do that if there is no people. I informed her that I issued a warning advising the occupants of property number 5 to contact me within 24hours. Mrs Willemse then asked me if she can sent someone to remove the warning which I issued from the gate and I advised her that she can't do that as this is now an SPCA case to solve and that warning is a legal document. I partially saw the two dogs through a small opening from the gate but I couldn't take any picture as there are some cameras on the property
