CLEAN LIVING ENVIRONMENT	Yes	
ANIMALS IN GOOD CONDITION	No ***	Appeared physically having a skin problem - possibly mange
VETERINARY PROBLEMS / HEALTH CO	Yes ***	Appeared physically having a skin - possibly mange
CONFINEMENT OF ANIMALS	Free roaming - in property	

General Report Comments: Upon my arrival, I was welcomed by Mrs. Marelize Swart, who came across as rude. I introduced myself and explained the purpose of my visit to her property.

I observed two Boston Terriers and one Boerboel cross. All three dogs appeared to be in poor physical condition, possibly suffering from mange. Shelter was provided, the living environment was clean, and water was available.

The owner stated that she had purchased F10 wound spray on the advice of Mrs. Linkie from the Wellington SPCA. I contacted the Wellington SPCA on 021 873 1196 and spoke to Inspector Eullies. I asked if they have a colleague by the name of Linkie, and he confirmed that Mrs. Linkie previously worked with them as an Inspector but has since resigned and is now employed at the Wellington Animal Hospital (021 864 3726).

I then contacted the hospital and spoke to Mrs. Shai, a veterinary nurse. When asked if she has a colleague named Linkie, she confirmed that Linkie works there as a pharmacist.

I further asked Mrs. Shai whether it was appropriate for Linkie to advise Mrs. Marelize telephonically to purchase F10 wound spray as treatment for dogs that appear physically ill, possibly with mange. Mrs. Shai responded that while the advice given by Linkie was not incorrect, she as a veterinary nurse would have advised Mrs. Marelize to take the dogs to the nearest veterinarian for a physical examination.
