General Report Comments: Upon my arrival in Darling new Asla conducting animals welfare door to door inspection .
I went to house no 4697 Lion Street, I was welcomed by Mr Sandile, I then introduced myself and explained my purpose to his property.
Therefore, I observed a brown male Africanis dog of 1 year old named Danger. Danger appeared physically looking good in condition with no veterinary problems or health concerns. Alternatively, he was put on a running chain of +-11 meters wire with approximately 4 meters long light chain to the collar.
Shelter was available, living environment was cleaned, and water was available. I educated the owner about sterilization and said he will think about it first.
