General Report Comments: There are two dogs and 30 free range chicken on this property. Both dogs are loose inside the property but according to Mr Severo the Pitbul X always jumps over the fence into the street. I observed external parasites (fleas) on both dogs and I issued a warning for that. I observed fresh drinking water, shelter and food for both the dogs and the chicken. The living environment is clean. The complainant informed me that the Pitbul dog always come to his restaurant to look for food. I advised him to call the Law Enforcement whenever the dog comes to his place or bring it to the SPCA as it will be a stray.
