Comments:	On my arrival, I was met by Mr Basie and Mrs Lee-Zane. I physically observed a female adult horse brown+white+black in colour named Sinda about 10 years old. Further, assessed the same horse looked like busy dying. The owner requested that the horse must humanely get euthanized to stop it from suffering. The owner signed the admission form of which I explained in detailed each block of the form regarding the request of euthanasia, see attached admission no. E1042. I then humanely euthanized the horse on the spot. The other horses appeared physically looking good in condition with no veterinary problems or health concerns.
