VETERINARY PROBLEMS / HEALTH CO	No	
CONFINEMENT OF ANIMALS	Caged - adequate space	Hamsters being kept in a glass tank.

General Report Comments: The owner Mr. Chapman was at the petshop when I arrived,he told me that he gave the hamsters away and is only left with 5x hamsters. I went with him to the glass tank where the hamsters are kept and I only saw 5x adult hamsters. I asked him about the hiding space and Mr. Chapman said that he does not like the idea of hiding space because then he won't be able to see if one of the hamsters are sick or injured. Mr. Chapman told me that they put in more bedding so that they can hide under the straw and wood shavings if they want to. Fresh food and water is available. No sick or injured hamsters observed. Will do a routine inspection when in the area.
