General Report Comments: Upon arrival at the premises to be investigated, I was met by Mrs Gertie Mary Domburg and another man who refused to identify himself, both residing on the property.

I introduced myself and explained the reason for my visit.

During the inspection, I observed 14 dogs, including puppies, and 2 cats.

All the dogs appeared to be in moderate body condition on physical examination. All the animals were housed within the same shelter as the main dwelling, and water was available. The premises was not adequately fenced and had no gate.

While I was still conducting the inspection, several community members arrived at the property and complained that Mrs Domburg's dogs were biting people in the street. Mrs Domburg confirmed that she was aware that some of her dogs bite passers-by. She then stated that she wished to surrender all the dogs that bite people, and subsequently surrendered 10 dogs, comprising 6 puppies and 4 adults.

As I was departing the premises, three ladies stopped me on the road, with one of them blocking the vehicle from the front. I stopped and they questioned why I had taken their dogs. I asked them why they were stopping me and how they were related to the lady who had surrendered the dogs. They replied that the lady is their mother.

I explained to them in a respectful manner that their mother had not mentioned anything about them or indicated that the dogs belonged to anyone else. I advised them to speak to their mother to establish why she had surrendered the dogs without consulting them.
