ADEQUATE SPACE AVAILABLE	Yes	
CLEAN LIVING ENVIRONMENT	No ***	Pieces of stones and woods
ANIMALS IN GOOD CONDITION	No ***	Appeared physically underweight
VETERINARY PROBLEMS / HEALTH CO	No	
CONFINEMENT OF ANIMALS	Static Chain - inadequate length ** Property was not adequately fenced	

General Report Comments: On my arrival at the premises 522 Ukhanyo street Kalbaskraal, I was met by Mrs Engelbrecht. I introduced myself and explained the purpose of my visit. Mrs Engelbrecht granted me permission to conduct animals welfare inspection in the premises.

Upon inspection, I physically observed 2 dogs on the property:

1. One dog was on a static chain of approximately 2 meters, connected to a wire bottom attached to the collar.
2. The second dog was on a static, inadequate leash of approximately 2 meters.

Shelter was available and water was available. The living environment was not maintained in a hygienic condition - loose pieces of stones and wood were observed in the immediate living area of the dogs.

One dog, a brown and white dog named Bruno, appeared physically underweight. The second dog, named Lady, appeared to be in good physical condition with no visible veterinary problems or health concerns.

I further observed that the property was not adequately fenced and had no gate.

When questioned regarding feeding, Mrs Engelbrecht stated that she feeds the dogs human consumption food and not adequate dog food. No adequate dog food was available on the premises.

A Notice to Comply No. I005945 was issued. Mrs Engelbrecht accepted and signed the notice on behalf of Mr Frederick Galant, who according to Mrs Engelbrecht is the actual owner of the dogs.

On the notice the owner was instructed to :

1. Provide the animals with adequate food on a daily basis. Adequate food for the dogs must be obtained within 24 hours from today.
2. Untie / Unchain the animals immediately to roam freely inside the property, or to place the animals on a "running chain" within 3 days. A run wire should be as long as possible and a minimum of 5 meters long with a 2 meters light chain to the collar. Dogs must have easy access to sun, shelter, shade, water and food.
3. Remove all physical hazardous elements from on top of the dog shelter / house.
4. Clean and hygienically maintain the animals' living environment within 24 hours.

Signed and accepted by: E. Engelbrecht
