General Report Comments: There are two dogs on this property and both dogs are on static chains. Fresh drinking water and shelter is available for both dogs.

Lola
Lola is a middle sized adult female dog which is not sterilized. Lola is on a long static chain without a collar. Lola is thin and covered with ticks. Her body condition is unacceptable. Lola was surrendered to the SPCA.

Laila.
Laila is a middle sized brown and black female dog. She is sterilized and her body condition is fair and acceptable. Laila is on a short static chain of about 2m long with a collar around her neck.

I issued a warning advising Ms Charmaine to:

(1)remove Laila from the short chain
(2)the surrendered dog named Lola was covered with ticks and thin so Charmaine must make sure that in future no animal in her care must be so thin and full of external parasites. The same dog did not have a collar around her neck and that must not happen again in future
