CHECKLISTS

WATER AVAILABLE	Yes	
ADEQUATE SHELTER AVAILABLE	Yes	
ADEQUATE SPACE AVAILABLE	Yes	
CLEAN LIVING ENVIRONMENT	No ***	Loose stones and faeces
ANIMALS IN GOOD CONDITION	Yes	
VETERINARY PROBLEMS / HEALTH CO	No	
CONFINEMENT OF ANIMALS	Static Chain - inadequate length **	The animal escapes the premises

General Report Comments: On arrival at the premises to be investigated, I was met by Mrs Katrina Marthinus. I introduced myself and explained the purpose of my visit.

I observed one (1) dog - brown and black terrier cross breed.

The dog appeared to be in good physical condition with no visible veterinary problems or health concerns. Water was available. Shelter was available. The living environment was found to be unhygienic and dirty, with loose pieces of stones and faeces present in the living area.

The dog was tethered on an inadequate static chain of approximately 3 meters long, light chain attached to the collar. The static pole was not pinned deeply enough into the ground, and during my inspection I physically observed the dog was able to tangle around the steel pole.

Notice No: I005956 was signed and accepted by Mrs. K. Marthinus.

You were hereby instructed to:

1. Clean and hygienically maintain the animal's living environment within 24 hours.
2. Untie / unchain the animal immediately to roam freely inside the property OR to place the animal on a "running chain" within 4 days. (A run wire should be as long as possible and a minimum of 5 meters long with a 2 meter light chain to the collar. Dog should have easy access to sun, shelter, shade, water and food).
