VETERINARY PROBLEMS / HEALTH CO	No
CONFINEMENT OF ANIMALS	Static Chain - inadequate length ** The dog is on a chain because he can jump over the wall and I

General Report Comments: I was met by Mr. Pienaar at his property. I told Mr. Pienaar why I am here and he granted me access to the property. On the property I observed 1x black X breed male on a short chain without a collar. Water and shelter is available. The dogs body condition is acceptable. Living area is also clean. The dog called Spencer is very aggressive, and the reason he is on a chain is because he jumped over the wall when he was loose and bit someone. I told Mr. Spencer that the way he is chained is not adequate and that he needs to install a running wire for the dog and also provide Spencer with a collar. I issued warning W6320. Will follow-up.

ACTIONS

Warning Issued W6320

REPORT OUTCOMES

Follow-up inspection to be conducted 2026-09-22
