General Report Comments: On arrival at the premises, I was welcomed by Mr. Brandon Cupido. I introduced myself and explained the purpose of my visit.

I then observed the following animals:

Male, brown and white Pitbull named Mufasa, approximately 2 years old. Female, black and white Jack Russell named Woefels, approximately 5 years old. Male, black and white Jack Russell named Kito, 1 year old.

All three dogs appeared to be in good physical condition, with no visible veterinary problems or health concerns. Water and shelter were available.

The living environment for the Jack Russells was not clean.

The Pitbull was on an inadequate running chain system, consisting of an approximately 11-meter running wire with an approximately 5-meter light chain attached. The running wire was connected to wooden poles, allowing the dog to become entangled.

The Jack Russells were on static chains of approximately 4 meters long light chains. Kito was able to tangle himself around a tree, restricting his movement.

I issued Notice No. I005971 instructing the owner to:

1. Place the animals on adequate, well-structured running chains.....
2. Clean and hygienically maintain the animals' living environment at all times.

Mr. Brandon Cupido accepted and signed the notice to comply.
