General Report Comments: On arrival at the premises, I was met by Mr. Enoc Geraldine. I introduced myself and explained the purpose of my visit.

During the inspection, I observed a brown male Boerboel named King, approximately 3 years old. King appeared to be in good physical condition, with no visible veterinary problems or health concerns. Water was available, adequate shelter was available, and the living environment was clean.

The premises was not fenced in front of the yard. There were many hokkies / small structures within the premises, leading to insufficient space. However, King was confined in a space that appeared to be sufficient for him to move around freely without obstruction.

I contacted telephonically the complainant to give her feedback and her phone was on voicemail.
