ADEQUATE SPACE AVAILABLE	Yes	
CLEAN LIVING ENVIRONMENT	Yes	
ANIMALS IN GOOD CONDITION	No ***	Appeared physically underweight
VETERINARY PROBLEMS / HEALTH CO	No	
CONFINEMENT OF ANIMALS	Static Chain - inadequate length **	Chained without collars around the necks

General Report Comments: On arrival at the farm to be investigated, I was met by Mrs. Maria Isaacs. I introduced myself and explained the purpose of my visit.

The house is divided into two separate dwellings, operating as neighbouring premises.

During the inspection, I observed 2 x Africanis male dogs, 1 on each premises. The owners of the dogs were not available upon my arrival.

Shelter was available.

Water was available and the living environment was clean.

Both dogs appeared to be physically underweight.

Both dogs were tethered on static chains of approximately 5 meters, chained directly around the neck without collars.

The premises was not adequately fenced and had no gates. The available space on both premises was limited and too small. The houses are situated very close to the main road, posing a safety risk.

I issued Notice No. I005979 to both owners separately, instructing them to:

1. Provide the animals with adequate food on a daily basis.
2. Put the animals on "running chains" within 4 days.

The notices were accepted and signed for by Mrs. Maria Isaacs on behalf of the owners, who undertook to hand the notices to the owners.
