General Report Comments: There are two dogs on this informal settlement house. There are no house numbers in this area. Both dogs body condition is fair and acceptable. The living environment is clean. I observed fresh drinking water and shelter. The male dog named Bolt is not castrated and running freely inside the property.
Rex is a Pitbul cross black + white unsterilized female dog. She is tied with a short rope because there is a small part of the fence which Rex uses to jump out of the property. I issued a warning advising Mr Tokwe to remove Rex from the short. I ask Mr Tokwe to sterilize Rex and he informed me that he will think about it.
