CHECKLISTS

General Report Comments: I went to do a recheck to see if I can find the female dog with the skin condition. When I stopped in front of the house a bakkie was reversing out of the property. The person got out of the vechile and introduced himself as Mr. Vraagom the owner of the property. I asked Mr. Vraagom where the dog is and he said that he does not have a dog, but there is a black and brown female dog that he feeds leftover food but the dog does not belong to him. I asked him when last have he seen the dog and he said he saw the dog a week or 2 ago. I asked Mr. Vraagom if I can have a look on his property and he said I'm more then welcome, there were no animals on the property. I asked him if he has received the warnings that I've left and he said no he has not received any warnings. I asked Mr Vraagom to contact me when he sees the dog again and if he will be able to confine the dog . Mr. Vraagom said that he will see what he can do and let me know . NFA until further notice.
