Comments: I was informed by Mr N. Abraham that they surrendered their dog Toby at Randburg SPCA. According to Mr N. Abraham they where harrassed by the complainant and they fought among each other. I was informed by Mr N. Abram nothing he did for Toby was good enough according to the complainant that is why he decided to sign Toby over to the Randburg SPCA. According to Mr Abraham Toby did not have hip problem. He was limping which might have caused by thorns while he was walking or something else he was monitoring his dog and gave home remedies. It wasn't something seriously urgent that needed Veterinary treatment according to Mr Abraham.
