Comments:	I did not get access to the property. The neighbor next to came out and approached me and I introduced myself and asked about her neighbors. She told me the owner is not home and doesn't have their contact detail however she will pass the message on my behalf and took my business card. I further asked if she knew anything about black dog that appear to be sick. She said yes and has been receiving treatment and has been to the vet according to Rachelle:- 072 836 8871
