Comments:	Inspector Warren and I followed up investigation:- the yard was cleaned, kennel was provided with bedding inside however the kennel was broken. The yard was cleaned during our inspection and told the boys they must do a running chain as well for their dog Pumkin. They complied with my written warning. We educated them about the work we do as inspectors, how we prevent cruelty and told us they will definitely inform us if there is any one abusing dogs. I told them they should even tell the others to bring their dogs for sterilization, vaccination specially Pitbull must not be scared to come at the SPCA. We there to help and prevent cruelty. I was told Pumkin like to play with balls and she is very powerful. I told them it's a power breed dog. It's good that he takes the dog for walks however must avoid walking where there are loose dogs. Afternoon I received a phone call from Zimvo to ask if they can discharge Pumpkin. Informed Zimvo to confirm with the clinic as long as they say it's ready then it's okay. Zimvo confirmed with Tebogo and said it's ready to go home. I told them they should wait for me I'm coming to educate them again, we gave them proper kennel, food and body belt to walk their dog. They seem to be happy and grateful what we have done for their dog.
