Street: THE GRENDEL AVENUE
Suburb: LONEHILL
Postal Code:
Date: 2022-11-04
Time: 11:01
Inspector: XOLANE MNCUBE

Type: GENERAL

Follow-Up Date:

Comments: Upon my I met up with Yvette and told me her dog had been poisoned and had taken the dog to be examined by the vet see attached report and did open the case:- 10/ 11/2022 and she suspect that her neighbor Mr Eddie van Aswegen might be the one who poisoned the dog see her attached report why she suspect Mr Eddie van Aswegen.

She kindly requested me to go and investigate Mr Eddie van Aswegen . I told her I/O will do the investigation however I can go ask them questions.

I went to Mr Eddie house and introduced myself and he kindly allowed me inside to ask him and his spouse questions.

I was informed they are aware of the dog next door being poisoned or something related to that incident. I asked them if they know anyone who might have done it and they replied no. I asked if they involved in any fishing activities their reply was no. I did not get any evidence or information that they might be the one who is involved in Teddy poisoning with fish hooks .

I called the complaint to give them feed back and said the I/O will investigate their case and if the is any more evidence they find must be provided to them since the case is opened.
