General Report Comments: Upon arrival the dogs two pitbulls "Lilo and Stitch" appeared to be underweight. The owner told me that the reason for the dogs to be underweight is that Lilo recently had some puppies and also she is no longer she changed the food type for the past 3 months from Bobtail to Mighty bites and hi dogs does not like it. Both dogs had some fly bites. The only dog which appeared to be in good condition is Jasper. I had to give the owner a warning to buy or take the dog to the vet to be examined and given medication for fly bites and underweight or go back to the previous food. I also educated her regarding sterilising his dogs and she agreed but she told me she doesn't have money and i will do an outreach.
