General Report Comments: I was informed by Mr Mike that he chains Molly sometimes when they open the gate so that the dog doesn't run at the street and Charlie is chained during the day about 2.5m chain. The dog appear to be aggressive and I was informed by the owner they only let Charlie roam free during the night. The are people who come to work and Charlie is very aggressive will bite them according to the owner. The kennel must be fixed and I told Mr Mike that Molly must not be chained next to the gate I understand his situation however proper shelter must be provided.
