General Report Comments: Upon arrival at the property I met with the owner of the dogs, Mr Igwe. He showed me where the dogs live and I discovered that they did not have provision of water and that the area where they were kept dirty with faeces and plastics.
The owner was educated to keep the area clean and that he should provide the dogs with fresh water all the time. A written warning was issued him. The owner didn't want to sterilize the dogs and neither did he want to surrender all the puppies. He surrendered one of the black and tan puppies.
