General Report Comments: Three of the dogs appeared to be underweight. The owner told me that the dogs were sick in the past to weeks but he did not take them to a vet. He phoned the vet and the vet told him to buy some dewormers for the dogs and see if there will be any change. He also told him to change the type of food he feeds and he changed to Bobtail and the dogs do eat it. I had to give the owner a warning note to take his dogs to the vet for treatment.
