General Report Comments: Upon arrival the dogs appeared to be in good condition. The only concern is that the pitbull had been cropped, the ears has healed and the owner told me that he bought the dog like that. I educated him about sterilising and surrendering the puppies to the Sandton SPCA but he did not agree he said his family wants the puppies and some he is going to take them to his farm. Regarding sterilising he said he does not want to sterilise he will think about it after the next litter.
