General Report Comments: Mr Mohammed keeps goats to sell to locals who need buy and slaughter. He invited me in when I went to his property to check on the living condition of the goats. They were in an enclosure and the reason for that was to limit them from destroying the garden. There was a pregnant doe and a young Billy at the property with food and water provided for them. They both appeared to be in acceptable physical condition. The owner was issued with a warning to repair the shelter for the goats even though he did mention that he was still building it. I gave him 7 days to do so.
