General Report Comments: Upon arrival at the complex, the guard at the gate gave me access to the complex and instructed me to wait in the parking lot for the landlord. At approximately 15:50, Mr Mohammed arrived in the parking lot to meet me and discuss the matter. The unit G03A was not locked as the door was blocked off with re-enforce rod. Mr Mohammed took me into the house to inspect. 3 cats were found in the house with water and food in their feeding bowls. The dog was outside in the courtyard, an asbestos dog kennel as a shelter in the veranda and toys provided. The owner was issued with a Warning Note accepted by the security guard, Alex to give it to the owner.
