General Report Comments: I was given access to enter the school when I arrived at the property. I was directed to where the dogs were kept. One dog, the Rottweiler named 'Midas' was placed South-eastwards of the main entrance and 2 dogs were held together in a security cage southwards. Midas had a security cage and a portion of the school ground to exercise himself. I was told that Midas was a rented security dog from Annette van Rensburg. The 2 dogs were being held in a standard security cage together with one dog plastic kennel which was inadequate to accommodate both dogs. Mr. Jeff Chamano who was the owner of the dogs claimed he was keeping them at the school because he was not able keep them at his place due to not having enough space but they appeared to be used for safeguarding and none of the dogs including Midas were licensed. I advised him to surrender them to the Sandton SPCA but he was not willing to do so. I issued a Warning to him to rectify the above concerns. He was given 7 days to do so.
