General Report Comments: Upon arrival 4 sheep were observed in the property. They appeared to be in good condition. They do not belong to Sandringham High school. They belong to David Troupe who lives behind the school, the area is a bushveld and they have a kraal and they provide them with water inside the kraal. They graze in the bush veld. There is a river where they drink water during the day. He does not sell them. There is a herder who looks after them his name is Brian Ngwenya. He told me that the sheep went near to street while he was herding them. He then went to fetch them. No violation of the Animal Protection Act 71 of 1962 was observed. I had to educate him that he needs to be more careful so that the animals do not go to the street. They closed the area where the sheep goes out. They also told me that 5 of the sheep were stolen on the 20 June 2022 the night before whilst they are sleeping the owner went to report to the SAPS.
