General Report Comments: Mr Mthunzi said to me he was he was the by his friend and he had to take the dog in to home the dog. The dog sleeps indoors and has a built up kennel outside as well. Fresh accessible water was made available for the dog. The dog was found sleeping on the couch with the owner with food available. The owner claimed he takes the dog for walks every day morning and evening. I tried to get him to sign over the dog by telling him the dangers of owning that dog breed but he refused. The complainant was only concerned about their safety and their kids. To continue checking on the dogs condition when in the area
