VETERINARY PROBLEMS / HEALTH CO	No	

General Report Comments: Mrs N. Kyte welcomed me to conduct inspection in her property: - 5Xdogs seen kept separated in the yard. The property is double stand house and the dogs have enough freedom to play, food, water and shelter is provided for the dogs. The Birds are kept separated in their cages in the house. There is a huge bird cage outdoors which is about 3m by 3m horizontal and 2.5m vertical with enrichment, perches and appear to be well maintained the cages I did not see any protruding wires. And the space is acceptable. I was informed by Mrs Kyte the Birds will go out during the day and bring them back inside at night. She showed me the diet for the Birds:- exotic fruits, seeds and veg. Dogmor, Beenos for her dog food seen. I saw sleeping beds for the dogs inside the house for each dog. I did not hear generator sound during my inspection since there wasn't any loadshedding. I was informed by Mrs N Kyte the generator does help her to prepare food and run the fish pound which I saw with school of fish:- clean water, enriched with plants and water temp suitable and fish are fed daily. Mrs Nicole Kyte wasn't rude towards me and I did not see any signs of her pets suffering. She has employed people to take care of the animals which I saw one lady preparing food for the animals in her kitchen while I was conducting my inspection. I did not see any welfare concerns during inspection.
