General Report Comments: Arrived at the property and met Mr Darrimalingum at the gate who invited me to enter the property. He owns a Rottweiler puppy(as detailed) that he got from his undisclosed boss and plans to take the puppy down to KZN soon. The puppy was in good physical condition and allowed the freedom of the whole house with everything for the provided indoors. When I asked him about tying up the dog he said he doesn't do it only yesterday it was for a few minutes when they were driving in to avoid the puppy going to the street. I told him he may not tie up the dog in manner that will or is likely to cause unnecessary suffering to the puppy. The owner was advised about sterilization and vaccination of the puppy but he said the puppy is vaccinated he just like to think about sterilization even after I offered it to him for free. He said he still wants to have a litter of before he could spay the dog. He said he will think about it. No welfare concerns were noted
