**CHECKLISTS**

General Report Comments: Upon arrival no dogs were found in the drains. The complainant had to show me the drains and i went inside the drains but could not see any dogs. The drains underground ground are too many. The complainant told me he last saw them on the 17 August 2022 at night. They usually come out and sleep at the park. I had to make an arrangement with the complainant that she will not feed the dogs so that they may come out of the drain and they will contact me.
