General Report Comments: At the property, Mr van Dyk gave me an access to the property. He said to me that the dogs(2) belong to his son who was at work. There were found 2 dogs on the property. One of the dogs named "Genie" showed signs of a skin condition and no water was provided as the water bowl was found tipped over. For the above mentioned concerns, I issued the owner/s with a written warning to rectify them. When I asked Mr van Dyk about whether he was aware of their dogs being involved in a dog attack he claimed he has no knowledge of such an incident but maybe his would know about it.
