CHECKLISTS

General Report Comments: Upon arrival at the property I met with the owners of the dogs. Mrs Nlemoha told me that the dogs went out as a result of them being kept in the front yard and that when they drive in and out they run out.
She told me that she loves the dogs and they are part of her therapy because her daughter committed suicide and ever since she's had them they are a great support system to her.
She showed me the backyard and we discussed plans on how she is going to keep them not to go out again. There's more than enough space in the backyard. I have also educated to take the dogs for a walk and to have them sterilized. She didn't agree to the sterilization because she wants to have puppies. A warning has been issued to her advising her to always ensure that the dogs are within the boundaries of the property.
