General Report Comments: I stopped at the nursery to check on the living condition of the dogs as I had been to check 2 months ago. The dogs appeared to be in acceptable physical condition. Although, the dogs are well-adapted to the busy of the road they are seen roaming on roadside and not in the traffic . They are both sterilized and the reason for keeping them at the nursery is that the owner stays on a rental set-up where dogs are not allowed. He has a big support from the local residents who helped him with all the dogs' needs. Food and supplies are provided to him whenever he needs them. No violation of the APA was found.
