General Report Comments: The Mrs Nleya invited me in the yard to inspect the living condition of the dogs. 2 German Shepard, juvenile puppies were found kept in the the courtyard with shelter and water provided. The puppies were kept in an adequate enclosure of approximately 5 x 4m and the reason for that was because the house is being renovated and they are newly-adopted and getting them to a routine within the yard. There were clean blankets and adequate shelter available. The puppies get walked around the block every day and there were dogs leads on top of their kennel according to the the helper. No welfare concerns observed.
