General Report Comments: Upon arrival at the property the address that was provided was the complainant. The complainant told me that the correct house number was 11. She told me that she heard the dog screaming on Saturday and she doesn't think it was alive. They gave me the owner of the dogs' contact and I phoned him. He told me he was on his way and that I should wait for him. He arrived in about 20 minutes time. He told me that he and his friend were taking the worm under the pups tongue and this is what he was taught as a young man by his father in KZN. He apologized and said he didn't know this was against the law. I checked the puppy under its tongue and I saw a small cut. He said they used a new blade and a safety pin. Education was provided. A written warning was issued to him to take both dogs to a veterinarian or SPCA for medical observation. He said his friend has a bakkie and they will take both dogs in the morning to Animal Anti-cruelty league.
