General Report Comments: When I hooted at the gate, Mr Hooker the owner of the dogs and property, came at the gate for my attention. I introduced myself and my reason for coming to the property he immediately admitted to me the concern I raised and as reported. He owns 2 other dogs as detailed. The big dog which is the third one a brown-white mesh, male German Short-haired Pointer named "Rigby" appeared to be underweight and Mr Hooker said he is an active dog and he is being fed enough food. I told him that the dog needs to be checked by the vet as worms trigger weight loss. This was addressed with a written warning to rectify the above-mentioned concern. Water, shelter were made available for the dogs and the other dogs appeared to be in acceptable physical condition. He assured me that he will take dog to a vet for a check-up tomorrow. To follow up
