ANIMALS IN GOOD CONDITION	Yes
VETERINARY PROBLEMS / HEALTH CO	No
CONFINEMENT OF ANIMALS	Static Chain - adequate length Jump wall and gate doesn't close well

General Report Comments: Pumpkin appear to be happy and allowed me to touch him. He wasn't aggressive like when he was at the Sandton SPCA, very calm dog and I was surprised how the behavior has changed! . I was informed by Shimane Mosito if he is unhappy the dog want to protect him. The was another dog black and tan male which was roaming at the street came to the property starting playing with Pumpkin during my inspection. Pumpkin did not show any sign of being aggressive towards this other dog nor me when I was inspecting even took the pics them playing together. I told him I'll follow up to steri the other male x breed dog.

The dog was eating, drinking water and seem to be happy and Shimane eventually let Pumpkin loose to play in the yard while we where both there. I told Shimane to get a running chain for Pumpkin and said he still looking for it and will definitely provide when he get one and will tell other to come at the Sandton SPCA to have their dogs sterilized . I told him we going to follow up and I'm gonna do regular checks around the area.
